

# How do I know which school is right for my child?

All Da Vinci Schools share common core values and a belief system in preparing students simultaneously for college and career while developing the whole student (academically, socially, emotionally). We know that students thrive when they are part of communities that know them well, so we keep our schools small and personalized. Our four high schools share the following signature programs and practices:

- Project-Based, College Prep Curriculum
- Advisory
- Presentations of Learning
- Real World Learning & Career Readiness Programs
- Foreign Language Options
- Student-Led Conferences
- Social Emotional Learning
- Honors Options/GPA boost
- CIF Sports
- Mastery-Based Grading
- Music
- Exhibition Nights
- Clubs, Prom, Grad Night & more
