## 2024-2025 School Accountability Report Card (Published During the 2025-2026 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

<b>Admission Requirements for the University of California (UC)</b>	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <a href="https://admission.universityofcalifornia.edu/">https://admission.universityofcalifornia.edu/</a> .
<b>Admission Requirements for the California State University (CSU)</b>	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <a href="https://www2.calstate.edu/">https://www2.calstate.edu/</a> .

### 2025-26 School Description and Mission Statement

#### Vision

A new generation of students prepared to lead, innovate, and thrive in the modern world.

#### Mission

Da Vinci Schools seeks to improve the quality of life for our students by cultivating a caring culture, building future-ready skills, developing meaningful partnerships, and creating impact in our work to solve complex educational problems.

- Culture: We cultivate a caring and compassionate culture that is rooted in trust, collaboration, and growth.

## 2025-26 School Description and Mission Statement

- Future-Ready Skills: We build future-ready skills through learn-by-doing and real-world, workforce skills.
- Partnerships: We collaborate with thought partners and share best practices beyond the Da Vinci community in our work to connect education and the workforce.
- Impact: We seek to close the opportunity and skills gaps, particularly for historically disadvantaged students.

### Aspirational Values

At Da Vinci Schools, we aspire to the following values:

People First: We put people first in everything we do.

- Celebrations at staff and leadership meetings
- Overnighter for freshmen
- Teambuilding days for every grade level
- We honor students for who they are and give them opportunities to grow and succeed at all levels
- Teacher evaluation process provides several opportunities for self-reflection and voice (personal meetings with admin at the beginning, middle, and end of the year)
- Peer observations focus on positive feedback and encouragement

Collaboration: Partnership is paramount.

- Grade-level team meetings/collaboration
- Number of Professional Development days/year
- Student group projects
- Interdisciplinary projects across subjects
- Collaboration with industry partners to identify skills needed for the modern workplace, CTE advisory groups, etc.
- Collaboration with industry partners on project consultations, Project Pitch Panels, etc.
- Leadership meetings and inquiry groups

Diversity, Equity, and Inclusion: We actively acknowledge our responsibility to eliminate systemic bias and exclusion, and engage in anti-racist and anti-ableist actions in the pursuit of educational equity for all students.

- Creating spaces in our organization for diverse voices to be heard, especially those of our students
- Strive to build responsive programming that meets the needs of all types of students
- Continuing to ensure ongoing professional development on implicit bias, diversity, equity, inclusion, and anti-racism, reaching every employee of Da Vinci Schools
- SPED students integrated as much as possible
- Diverse but cohesive student body
- Multiple Tiered Systems of Support teams for student support
- Project-based learning and mastery-based grading are focused on reaching all students

Possibility: We strive to build a better tomorrow.

- Alternative solutions to closing opportunity and skills gaps, including solutions for college cost, debt and completion, along with workforce development
- Research & development arm of education, then share through Institute
- Instructional models to match student and family needs
- Both students and staff get to do work that matters to them (future-oriented = voice & choice to build a better tomorrow)
- We instinctively look to solve problems, and develop new responsive school models when we see an unmet need (creation of DV Connect, DVX, etc.)
- We are creative, flexible, and comfortable with change -- key components in implementing new ideas that lead to a better tomorrow

### Critical Success Factors

What is most vital during the next 3-5 years to fulfill our vision and achieve our mission?

- People. Because student learning is primary and must be organized, prepared and facilitated by best-in-class faculty and staff.
- Culture. Because reimagining education requires innovation, compassion, the signature programs that make us uniquely successful, and diversity, equity, and inclusion for all.
- Growth. Because with adequate funds, and a mindset of continuous improvement and adaptability, we are able to serve and prepare more students in this rapidly changing world.

## 2025-26 School Description and Mission Statement

- Partnerships. Because industry and higher education partners play a vital role in providing connections to the employment pipeline and in preparing students for college, career, and life.
- Operational Excellence. Because building excellent schools and programs requires effective systems that are easy to use and accessible when needed.

### Overview

Da Vinci Science High School's mission is to provide our students a rigorous, relevant, and hands-on college preparatory education which emphasizes science & engineering in a safe and supportive school family. DVS reimagines the high school experience by prioritizing people first. The holistic approach to STEM education creates an inclusive home for deep learning, inspiration, and real-world experiences. With equitable access to new opportunities, we empower students to explore passions, leverage strengths, and make meaningful contributions to an ever-changing world.

Da Vinci Science students take a rigorous, college preparatory curriculum that is integrated with hands-on, real-world learning and career pathway classes that focus on the knowledge and skill sets needed for 21st century jobs. Through hands-on, interdisciplinary projects, students are challenged to think like scientists, engineers, architects, designers, and programmers and to solve real-world problems through a process of inquiry, teamwork and design. Student progress is measured and assessed through traditional assessments as well as public presentations of learning and exhibitions. All teachers use Mastery-Based Grading based on identified essential skills and a common gradebook architecture. In 2013, Da Vinci Science was certified as a Project Lead the Way (PLTW) school. PLTW is the leading provider of rigorous and innovative STEM curricula used in middle and high schools across the U.S. In a recent Huffington Post article, Dr. Vince Bertram, the president and CEO of PLTW, called Da Vinci Science "a global model for STEM education."

Da Vinci Science has formed extensive partnerships with local companies, universities and nonprofits, including Northrop Grumman, Boeing, Chevron, Raytheon, SpaceX, Project Lead The Way, El Camino College, Cal Poly San Luis Obispo, and others. These STEM professionals provide mentoring, internships, project support, work experience opportunities, and software training, as well as help us identify the real-world knowledge and skill sets that students need to know that do not appear in the Common Core State Standards. DVS students also have the opportunity to enroll in Early College/Dual Enrollment classes that count for both high school and college credit through El Camino College. Our community partners play a vital role by helping to align our projects to industry expertise and standards. Success in the 21st century requires new skill sets and a different approach to learning. All of us in the Da Vinci community -- students, families, staff, board members, community partners and supporters -- are committed to ensuring that every Da Vinci student graduates with the knowledge, skills, confidence and compassion needed for success in college and the global workforce.

### About Us

The Da Vinci Schools opened in August 2009 as independently governed and operated public charter high schools serving the Wiseburn community and children from 45+ zip codes. Da Vinci Schools are a nonprofit independently governed Local Education Agency authorized by the Wiseburn Unified School District and approved by the California Department of Education. Da Vinci Schools and the Wiseburn Unified School District operate as two legal entities to take advantage of operating flexibilities and significant resources, but with one common purpose. Both organizations are fundamentally focused on providing an outstanding educational experience for the Wiseburn community and other families.

Da Vinci Science is a small, public charter high school in Los Angeles authorized by the Wiseburn Unified School District and accredited by the Western Association of Schools and Colleges (WASC). DVS offers a real-world, project-based curriculum with an engineering focus through the national Project Lead the Way program. All DVS students take University of California (UC)/California State University (CSU) approved college-prep courses. Project Lead the Way curricula, Project Based Learning, Mastery-Based Grading, and personalization of student experience give students a four-year learning experience that is both broad and in-depth. These strengths translate into college-ready students. Ninety-eight percent of the class of 2022 successfully completed their "a-g" requirements for admission to a UC or CSU school; 100% of graduates were accepted to college; and 84% were accepted to a four-year college or university.

Serving diverse students from over 99 zip codes across Los Angeles County, Da Vinci Science is located in the heart of aerospace country. Several major STEM (Science, Technology, Engineering and Math)-focused companies such as Northrop Grumman, Raytheon, Boeing, Chevron, and The Aerospace Corp are located within blocks of Da Vinci Science. Da Vinci Science capitalizes on this opportunity by having engineers and scientists work directly with students and teachers. These industry experts help students master the real-world knowledge and skills that do not appear in the Common Core education standards. Da Vinci Science is a member of the Coalition of Essential Schools and is a certified charter school of the California Charter Schools Association. Da Vinci Science is fully accredited by the Western Association of Schools and Colleges (WASC) through 2031.

### Major Achievements

## 2025-26 School Description and Mission Statement

- Da Vinci Science graduates have been accepted to every UC and CSU university, as well as Yale University, MIT, Stanford University, Columbia University, University of Pennsylvania, Princeton University, Purdue University, Carnegie Mellon University, Johns Hopkins University, and many more.
- One Da Vinci Science student in 2014, and three in 2013, were named Gates Millennium Scholars, a nationally competitive and elite scholarship program that provides full financial support for undergraduate and graduate school programs for 10 years.
- In 2014, Da Vinci Science was invited by Los Angeles Unified School District to serve as a best practice demonstration site for establishing a regional real-world learning model as part of a \$15 million Career Pathways Grant from the state's Department of Education for programs linking learning and career and technical education.
- In 2019, Da Vinci Science FIRST Robotics Team 4201, won the World Championship Competition. In 2020, Da Vinci Science FIRST Robotics Team 4201, the "Vitruvian Bots," was ranked first and won the Los Angeles Regional Competition. In addition, Da Vinci won the Autonomous Award and the Engineering Inspiration Award.
- Da Vinci Science was named among an elite group of Schools That Can.
- In 2024, The California Department of Education named Da Vinci Science a California Distinguished School.
- Class of 2025 graduates are college-ready and career prepared with 98.4% of graduating seniors having met UC and CSU "A-G" course requirements for admission and 80.6% of whom received four-year university offers.
- In 2025, Da Vinci Science was re-accredited by the Western Association of Schools & Colleges for six years, the longest accreditation term granted by WASC.

### Focus for Improvement

Da Vinci Science has prioritized areas for growth as follows:

- Develop & implement a Multi-Tiered System of Supports (MTSS) for the diverse needs of learners
- Increase the use of student performance data to refine course curriculum and teaching strategies
- Grow the culture of advisory and strengthen the involvement of parents.

\* Reduce disparities in academic outcomes for historically underserved student groups

### A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

#### College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

Subject	School 2023-24	School 2024-25	District 2023-24	District 2024-25	State 2023-24	State 2024-25
<b>English Language Arts/Literacy</b> (grades 3-8 and 11)	81	74	62	62	47	48
<b>Mathematics</b> (grades 3-8 and 11)	48	48	45	45	35	37

## 2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. ## 2024-25 Career Technical Education Programs

Students have numerous opportunities to explore career options and prepare for the workforce via high quality career technical education (CTE) pathways that prepare students for high-skill, high-demand jobs.

Da Vinci Science students have three career pathways from which to choose: Mechanical Engineering, Civil Engineering, and Patient Care (Biomedical). CTE programs offer students, especially groups historically underrepresented in STEM, the chance to explore different fields, participate in rigorous dual enrollment courses, off-campus work-based learning, and more. Every student is enrolled in a career pathway. These courses meet approximately 250 minutes per week in CTE labs and classrooms with equipment and tools that meet industry standards.

Da Vinci Schools offers students a real world, project based curriculum that brings industry expertise into the classroom. Local industry professionals work directly with Da Vinci students and teachers providing project planning support, mentoring, guest lecturing, co-teaching, hosting field trips, and more. Students gain additional work experience through required service learning projects in the community as well as leadership and advocacy opportunities both on and off campus. Da Vinci Schools established the Real World Learning program to bridge the gap between the classroom and the workplace. Students have completed work assignments with local business and internship partners, including Northrop Grumman, Belkin International, Gensler, Boeing, Kaiser Permanente, and more. Our high school offers courses intended to help students prepare for the world of work. These CTE courses, formerly known as vocational education, are open to all students.

## 2024-25 Career Technical Education Programs

The Real World Learning program is an opportunity provided to all Da Vinci Schools students at the high school level. This is the “hands-on” component of our cornerstone college preparation and career exploration curriculum. Working with professional partners, Da Vinci students gain an understanding of the essential skills and work habits necessary for success. The goal of the Real World Learning program is to bridge the gap between the classroom and the workplace.

There are many ways in which our Community Partners participate with our schools:

- **Advisory Board Members:** Each CTE pathway is supported by an Advisory Board made up of professionals representing a cross-section of relevant industries. Advisory Board members help define the skills and competencies students need for success, advise on workforce trends, review curriculum, and identify opportunities to strengthen real world learning experiences. For more information about CTE Advisory Boards, please contact Crissel Rodriguez, Director of Real World Learning at [crodriguez@davincischools.org](mailto:crodriguez@davincischools.org).
- **Guest Speakers and Career Talks:** Professionals visit classrooms to share career journeys, industry insights, and real-world applications of student learning.
- **Career Exploration Events:** Organizations participate in on and off-campus events that introduce students to a wide range of careers, industries, and postsecondary options.
- **Field Trips and Workplace Visits:** Students visit partner organizations to observe professional environments, explore career roles, and understand how teams collaborate across functions.
- **Work Experience Program:** A student works unpaid in an organization to learn on-the-job skills and to provide the organization with free help. The assignment is usually two afternoons a week for eight to ten weeks.
- **Client-Connected Projects:** Organizations submit real business or community challenges, such as marketing campaigns, design needs, or research questions, that students address through projects, receiving ongoing feedback from the client.
- **Job Shadows, Internships, and Work-Based Learning:** Students apply for internships and structured work-based learning experiences that provide deeper exposure to various professional settings and are supported by a professional mentor.
- **Other Workplace Opportunities:** When appropriate, Da Vinci Schools collaborates with partners to design tailored programs or experiences that meet specific organizational needs while supporting student learning.

## 2024-25 Career Technical Education (CTE) Participation

Measure	CTE Program Participation
Number of Pupils Participating in CTE	495
Percent of Pupils that Complete a CTE Program and Earn a High School Diploma	72.7

## B. Pupil Outcomes

### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

## 2024-25 California Physical Fitness Test Participation Rates

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

## 2025-26 Opportunities for Parental Involvement

While there are no family volunteer hour requirements, we expect parents to be part of school events, including Back to School Night, Exhibition nights, student-led conferences, and School Site Council meetings. In addition, parents can get involved through various campus parent groups.

Events include:

- Back to School Night
- Fall Student-Led Conference
- Exhibition Night
- Spring Student-Led Conference
- Parent Coffees and Office Hours
- Parent Workshops

Parent groups include:

- DVS Parent Association

## 2025-26 Opportunities for Parental Involvement

### Parent Advisory Committee

In addition, parents of students in each grade level are expected to attend a College Planning Meeting once per semester with their child. These meetings are led by the college counselors. The purpose of these meetings is to involve parents in the four-year journey of preparing for and selecting the college that is the best fit for each student.

Parents and students participate in the DVS Parent Advisory Committee and DVS Parent Association. Parents and students are also invited to attend monthly "DVS Family Coffee" with the site administrators, parents, students, staff members, and professionals as guest speakers.

## 2025-26 School Safety Plan

In 2025, DVS staff and stakeholders updated, completed, and approved a comprehensive safe schools plan according to the ed code and in conjunction with local law enforcement and emergency personnel. The plan was updated and reviewed by the Parent Advisory Committee and approved by the Da Vinci Schools Board of Trustees.

Our staff is trained in order to provide for the safety of students, staff, and visitors during times of emergency. Emergency preparedness includes fire, lockdown and earthquake drills that happen at regular times during the school year. All alarms are treated as real. In the event of an alarm, all staff, students, and visitors are required to complete an orderly and safe evacuation of the classrooms and building. Staff and students will meet in pre-assigned areas and will remain there until all students are accounted for and instructed to return to the building or move to a safer area. In the case of a major emergency (such as a significant earthquake or fire), parents and guardians and other family members should contact the main office or go to [www.davincischools.org](http://www.davincischools.org) for more information. During such an emergency, staff will be focused on ensuring that all students are safe and accounted for.

Lockdown drills are conducted with the assistance of local law enforcement agencies, who initiate and simulate the critical incident situation, and who return the same week to debrief the experience with the students and staff.

During the COVID pandemic, the DVS staff received regular training and updates from the organization's nurse and facilities directors, which included strict protocols for visiting campus, contact tracing, and other means of ensuring the safety and health of staff and students.

## 2022-23 Secondary Average Class Size and Class Size Distribution

This table displays the 2022-23 average class size and class size distribution. The columns titled "Number of Classes" indicates how many classes fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Subject	Average Class Size	Number of Classes with 1-22 Students	Number of Classes with 23-32 Students	Number of Classes with 33+ Students

## Fiscal Year 2024-25 Types of Services Funded

In 2024-25, Da Vinci Schools provided services that supported the educational objectives of providing an excellent education through specialized programs for career technical and college readiness programs, including extensive professional development and experiential learning opportunities (e.g. project based learning) in a small classroom environment. For those students that showed need, additional resources were utilized for additional services such as tutoring, summer school, independent study, coaching, etc.

## Fiscal Year 2023-24 Teacher and Administrative Salaries

## Professional Development

Extensive professional development is a signature practice of Da Vinci Schools. Da Vinci Schools devote substantial time and resources to staff development and collaborative planning. Every Friday, Da Vinci staff meet from 7:45-8:45am to celebrate each other's work, share best practices, discuss upcoming school business, and share and reflect upon student work and performance data. Within this time, teachers also hold in grade-level meetings to plan interdisciplinary projects and events, i.e. student-led conferences, exhibitions, and portfolio defenses, and to conduct job-alike meetings (collegial coaching, vertical alignment of content). Professional Development time also is used to develop Expected Schoolwide Learning Results (Habits of Excellence and 21st century skills).

New Da Vinci high school teachers receive 20 days of paid professional development (continuing teachers receive 20 days) plus 5 1/2 hours per week and a daily hour-and-a-half planning period for collaborative planning to ensure that every student who graduates from Da Vinci Schools is college-ready, career-prepared, and community-minded. These professional development days include professional partnerships from external agencies, visits to similar schools to gather best practices, staff reflection and collaboration, as well as training in supporting students with IEPs and 504 plans, English Language Learners, and Diversity, Inclusion, and Equity practices.

This table displays the number of school days dedicated to staff development and continuous improvement.
